

BizWize

the things that matter

Data Integration & Data Quality

Our Platform enables the **preparation, integration & governance** of your companies data.

CURRENT REALITY

"The number of **applications** they use for business has **spiked**."

"The number of **vendors, suppliers and partners** they must work with has also **increased**."

65%
OF FIRMS SAY

"The **volume and variety of data** has **increased**."

50%
OF FIRMS SAY

88%
OF FIRMS SAY

A managed-services approach to integration lets organizations focus more time on **driving value from data**, and less on technical implementation and integration maintenance.

BENEFITS

Dramatically accelerate the time it takes to build, embed, and deploy data integrations projects.

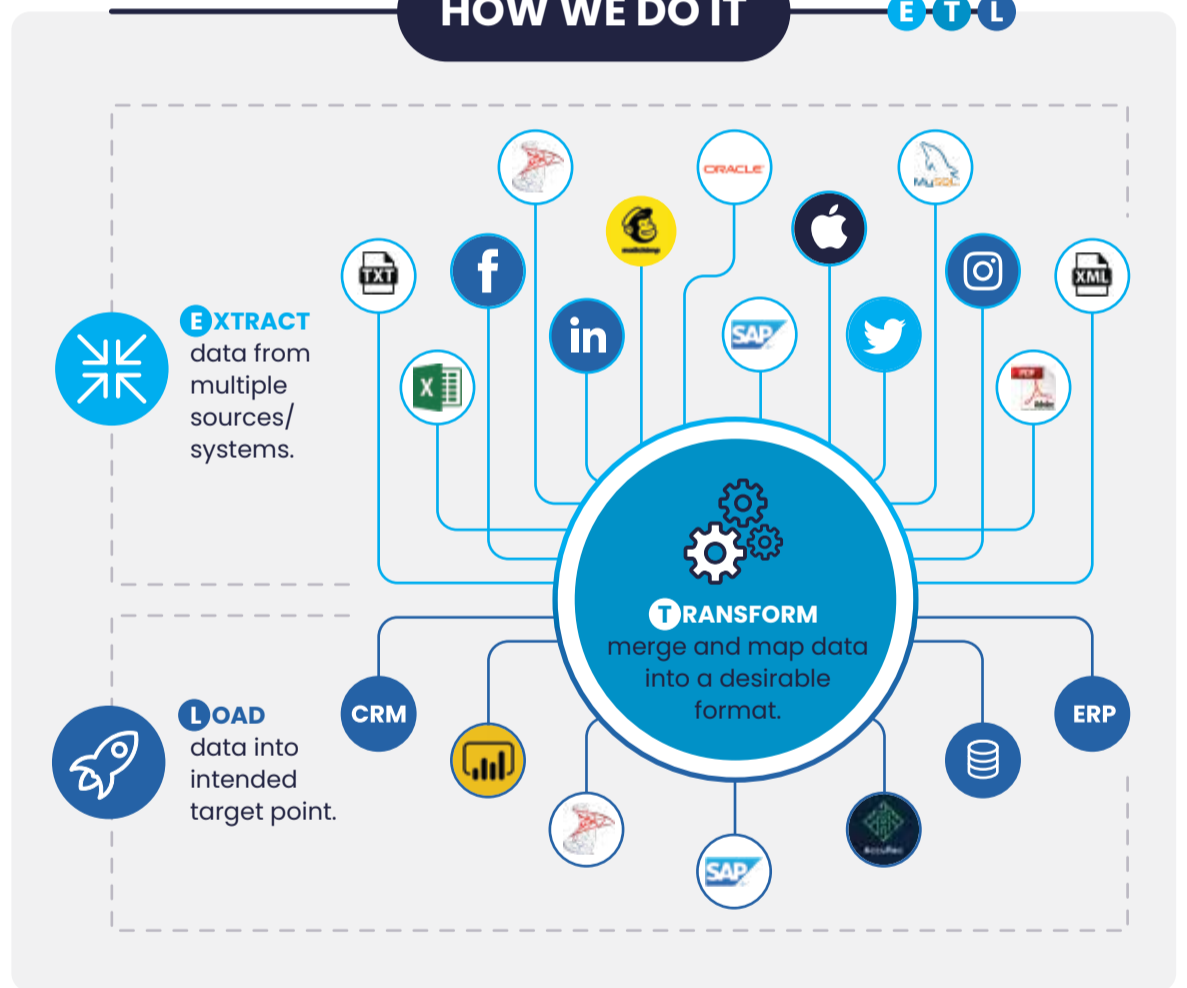

Increased productivity: Do more with fewer resources.

Data Integration can help you **increase new system adoption**.

Improve your customers and business partners experiences which leads to better relationships.

HOW WE DO IT

E T L

This vastly accelerates the discovery and availability of real-time, analytics-ready data by automating data streaming, refinement, cataloguing and publishing.

KEY FEATURES

Access clean transformed and enriched data easily with our cloud-based data preparation tools.

Build integrations anytime, anywhere - no hand-coding required.

DATA

Synchronize your data quickly between any SaaS and on-premises application.

Centralize secure user and role management in the cloud.
